

# INTELLIGENT TRIPLE PROTECTION

Blending traditional **physical** barriers with **monitored** technology and **human** intervention

## ECO TOWER

The Eco Tower is a fully off grid CCTV system helping our clients move towards a carbon neutral operation.

Being fully powered by solar during the summer months which is then supplemented by hydrogen in the winter for fully green operation.

## MONITORED TECHNOLOGY

Comprising of wireless alarms, cameras, sensors, Bluetooth, GPS enabled devices and tower technology. Enabling remote, fully off-grid protection all controlled from our in house 24/7 monitoring station.

## PHYSICAL PROTECTION

Securing residential vacant and void properties utilizing traditional physical protection solutions. This including steel shuttering, temporary high security steel doors, temporary fencing and concrete blocks.

## SMARTEYES

Our new SmartEyes system is battery powered, completely wireless, high definition video verification system which can be mounted on a pole, wall, tower or any other solid fixing.

In built artificial intelligence learns the site and helps to reduce false alarms decreasing security provision costs

## GUARDIANS

Our protection by occupation, which turns an empty property incurring a security cost each month, into a revenue stream for our clients.

Our properties are inspected regularly and we can offer ongoing maintenance as required. All our guardians are fully vetted and DBS checked

## HUMAN INTERVENTION

Including our national manned guarding, insurance compliance property inspections and reactive alarm response. We are also the only security provider to offer protection through use using our Guardians solution.

## INSPECTIONS

Our 52 point weekly property inspections making sure your site is maintaining void insurance compliance.

Our award winning customer portal allows you to instantly view reports, high definition imagery and meter reads.
